TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

(L. S.)

To the Inhabitants of the Town of Danville in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Danville on Tuesday, the eleventh day of March, next at five of the clock in the afternoon, to act upon the following subjects:

Polls will be open from five to nine P. M. — Budget acted upon at eight P. M.

1. To choose all necessary Town Officers for the year ensuing.

2. To hear the report of the budget committee, and act thereon.

3. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.

4. To see what sum of money the town will vote to raise and appropriate to repair the several highways and bridges.

5. To see what sum of money the town will vote to raise and appropriate for snow paths.

6. To see if the town will vote to raise and appropriate a sum of money necessary to obtain State aid on town road maintenance.

7. To see what sum of money the town will vote to raise and appropriate for the Public Library.

8. To see if the town will vote to raise and appropriate a sum of money to be used in improving the cemeteries.

9. To see if the town will vote to raise and appropriate a sum of money for the observance of Memorial Day.

10. On petition of Wilton H. Hoyt and others to see if the town will vote to raise and appropriate the sum of \$1,000.00 to be used to repair and surface March's hill on Sandown Road and a section of the Hunt Road starting at the South Danville Post Office, this amount to be divided as follows: \$750.00 on Sandown Road, \$250.00 on Hunt Road.

11. To see how much of the Parsonage Funds the town will vote to spend for preaching for the ensuing year.

12. To see if the town will vote to allow the Town Hall to be used for Basketball.

13. To see if the town will vote to authorize the selectmen to hire money for the use of the town.

14. To see if the town will vote to raise and appropriate a sum of money to be used for a new top on the water hole at North Danville.

15. To transact any other business that may legally come before the meeting.

Given under our hands and seal, this twenty-fourth day of February, in the year of our Lord nineteen hundred and forty-seven.

BERNARD E. RUMERY,
GEORGE W. SHATTUCK,
CHARLES M. HARPER,

Selectmen of Danville.

A true copy of Warrant—Attest:

BERNARD E. RUMERY,
GEORGE W. SHATTUCK,
CHARLES M. HARPER,

Selectmen of Danville.

REPORT OF TRUSTEES OF
DANVILLE PUBLIC LIBRARY

Our town suffered a real loss in the death of Glenna Allard last March. She was not only a gracious friend among us, but had also served the community ably and faithfully in various positions. For years she had been a trustee of the town library. Her kindly cooperation and excellent judgment were unfailing. Her memory will be cherished by all who had worked with her.

Muriel C. Tebbetts was appointed to complete Mrs. Allard's term as trustee.

We are happy to report a year of growing interest in the library. Many current books of value have been added, also a larger proportion than usual of juvenile books.

A gift of books from Mrs. Cora Witherell is acknowledged with appreciation. Several townspeople donated one of more works of fiction, and to them we express our thanks.

Mrs. Alden D. Colby and Mrs. Robert A. Hicks have loaned many books during the year, a valuable contribution to the usefulness of the library.

A selection of books has been loaned monthly to the library at North Danville.

With the largest number of contemporary books on the shelves in the history of our library, more people are invited, even urged, to avail themselves of the privilege of reading them.

FRANCES W. COLBY,

MURIEL C. TEBBETTS,

WILL C. CHAPPELL,

Trustees.

REPORT OF AUDITORS

We have examined the accounts of the Selectmen, Clerk, Treasurer, Tax Collector, Library Trustees, Trustees of Trust Funds, and Parsonage Committee of the Town of Danville for the Town of Danville for the past year and find them correctly cast and properly vouched for.

MERLE D. KIMBALL,

MURIEL C. TEBBETTS,

Auditors.

HELP YOUR FOREST FIRE WARDEN PREVENT

FIRES — IT PAYS!

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The public, however, looks to him at all times for speedy and economical suppression of going fires.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 per cent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires, when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

◀The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this —

1. Use ordinary common sense with fire in and near woodland.

2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.

3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.

4. Cooperate with and assist the warden and urge others to do so.

5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES** — his efforts are only as effective as is the cooperation you give him!

1946 fire record

Number of fires 2.

Acreage burned, less than one.

Number fire permits issued, 75.

DONA LESSARD,

Warden.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

*To the Inhabitants of the School District in the town of
Danville, qualified to vote in district affairs:*

You are hereby notified to meet at the Danville Town Hall, in said district, on the seventh day of March, 1947, at eight o'clock in the evening, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and truant officer, and fix the compensation of any other officers or agents of the district.
6. To hear the reports of Agents, Auditors, Committees, or officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the School Board in its annual report.

9. To see if the district will vote to raise and appropriate \$500 for exterior paint and repair of the Eaton School.

10. To transact any other business which may legally come before this meeting.

Given under our hands at said Danville this thirteenth day of January, 1947.

FRANCES W. COLBY,

GEORGE W. SHATTUCK,

CHARLES W. HARPER,

School Board of Danville.

AUDITOR'S CERTIFICATE

This is to certify that we have examined the books and other financial reports of the School Board of Danville, of which this is a true summary for the fiscal year ending June 30, 1946.

VIOLET MACE,
RUTH CRAGGY,
Auditors.

SUPERINTENDENT'S ANNUAL REPORT

February 1, 1947.

GOOD CITIZENSHIP TOMORROW IS BASED
UPON GOOD SCHOOLS TODAY.

To the School Board and Citizens of Danville:

I am pleased to submit my fifth annual report as superintendent of your schools.
Teachers and Finance.

During the past year one of our greatest problems has been to maintain our teaching force. The usual factor of higher salaries elsewhere, plus the desire of some of the married teachers to remain at home since the ending of the war, have been the chief causes for the need for about twenty (approximately 50%) new teachers within this Supervisory Union. We have however, been fortunate to continue and in most instances improve our teaching forces.

Teachers' salaries is undoubtedly the number one school problem throughout the country today. It is anticipated that much higher salaries for teachers will not only follow as a result of the present economic situation which is comparable to that which followed World War I but may continue after the crisis is over as a means of inducing more of the better high school graduates to look toward the teaching field as their chosen profession. The present low enrollment of prospective teachers in our teacher training institutions is indicative of an acute continued shortage for some years to come. From the state and federal levels of school finance, there is much indication that considerably more state and possibly federal money will be available (without more control) for local units. Should this outlook become a reality, teachers' salaries and other necessary expenditures could be increased to a great extent without much if any increase in direct property taxes which are in many instances too high at the present time.

The bill proposed by our State Board of Education and now pending before the state legislature would increase the amount of state aid to local towns and cities throughout the state from around \$400,000 to \$2,080,000. If this proposal is adopted by the legislature, different individual towns within Supervisory Union No. 14 would receive from two to nearly four times as much as they are now receiving from state funds.

Social Studies.

The three R's (reading, writing and arithmetic) continue to be the basic foundation upon which our whole education system is based but to them other important phases have been added. In the social science field, the study of geography and history continue to stress the relationships between all peoples and nations. As set forth as the key to the Constitution, adopted in London in November, 1945, of the United Nations Education, Scientific, Cultural Organization the following statement shows the need for continued consideration of other people and places. "That since wars begin in the minds of men, it is in the minds of men that defenses of peace must be constructed." In this atomic age, we are in the midst of one of the great revolutionary periods of history and upon our generation and its successors the task is imposed of discovering and organizing and establishing a multitude of new relationships among the peoples of this planet. In relation to this but under the title of Air Age Education the president of the National Education Association has recently stated "youth should develop a sense of personal concern for the solution of our problems brought about by aviation" — all pupils have an obligation to study and, in so far as possible, to help solve the problems which the air age presents. Throughout our schools, children are becoming more aware of these problems through use of modern books, current publications and in some instances the use of motion picture machines and radios.

Guidance.

In order to more completely discover and develop the potentialities of each individual pupil for his own happiness and social usefulness, our teachers are attempting

to cause each pupil to progress according to his own abilities. Promotions are determined on the bases of mental, physical and emotional development as well as of grade-achievement. Consideration is on the question of what appears to be for the best for each individual child. Standardized achievement tests were administered to children above grade two during the past year and mental ability tests are administered to each child at least twice during his school years. Results of these tests are of a great help in knowing what to expect of the child and to check his progress in comparison to other children within the same age and grade groups. The proficiency of our testing program is impeded in some instances by the lack of time on the part of teachers to correct and interpret the tests and in some instances because of lack of training of some teachers in the testing field.

Books and other teaching aids.

We are continuing to purchase the newest books available for the various grades and subjects as the older ones become worn and outdated. An answer to the question "Why Don't We Get Our Books?" is found in the following quotation from Lloyd W. King, executive secretary of the American Textbook Publishers' Institute. "It is true that schools opened in September of this school year with a shortage of text and reference books — and because of this shortage of stock about 12½% of the school books ordered had not been delivered." Some other reasons given for this situation are: (1) limited supply and increased demand for white paper from which books are made, (It is estimated that the demands for books of all kinds in 1946 is three times the 1943 volume of production.) (2) restricted pulp supply. (3) shortage of new machinery and therefore lack of press time. (4) — strikes. Mr. King continues with estimates to the effect that, because costs are continuing to increase, textbook prices will be by July 1, 1947, 40% higher than the 1942 prices. Within our area, we have renewed our book supply during the past few years to the extent that budgets for books will probably not be increased to a great extent for the coming year.

From the Twenty-fourth Yearbook of the American

Association of School Administrators (1946) we quote: "One lesson from the educational programs of the armed services should be emphasized. Audio-visual aids are vitally necessary in the educational equipment of a modern school. Projection equipment, radios and phonographs are essential." The moving picture projectors in Newmarket and Epping are being used regularly. Several of our schools are fortunate in having continued rise of radios and victrolas.

Some of the greater weaknesses within our area and common to it at the present time are poor physical plants, educational and economic inefficiency in organization in some instances, lack of satisfactory playground areas and limited curricula in our high schools. The state aided vocational offerings at the Dover High School which are free — except for transportation — are being utilized by a few students within this area. Courses in vocational agriculture, home economics, commerce, mechanic arts and beauty culture are available at Dover to any high school student who wishes to elect them. These vocational courses, with other more usual high school subjects provide a full high school course, the completion of which entitles the pupil to a regular high school diploma.

"If youth are vocationally proficient and have earning capacity, as well as the broadening educational offering which help them in their social and civic performances in life, they are on the road to being good citizens and will be well equipped to make their contributions to society." ¹

Physical Fitness.

One of the educational trends throughout the country is general improvement of programs to develop physical and mental health. For twelve years the school has a remarkable opportunity to join hands with other agencies in making physical fitness a major objective. Our school nurse makes a careful examination of each child once each year and has a watchful eye for any physical weaknesses or signs of disease or illness during each visit to the school. Many of the defects are cor-

¹ 1945 Yearbook American Association of School Administrators.

rected through the good efforts of parents although in many instances no corrections are made. (This fact may be more specifically noted in the nurse's report which follows). More care should be taken by parents in follow-up work to prevent more serious situations at later dates. The organized inter-scholastic sports in the high schools and the supervised playground activities in the elementary schools are valuable moves toward our objective. Organic power is built in accordance with the age-old law of use which means "physical exercise."

Three major health factors: namely, sleep, rest and nutrition, are taught in health and science classes; the third mentioned is being further encouraged by the government through financial aid in purchasing of milk, donation of food, and, in many instances, donation toward purchases of lunch room equipment. As our school buildings are improved or renewed to include running water, refrigeration and cooking facilities, we may be able to have a school lunch program in every school.

The Eaton School opened in September with no change in the teaching staff. In December, 1946, Mrs. Mary Sweeney resigned and was replaced as of January, 1947, by Mrs. Flora Sanborn Winslow of Brentwood. Mrs. Winslow is a graduate of the class of 1936 at the University of New Hampshire and has had eight years of teaching experience in Tilton and Franklin, N. H.

The reorganization of the school with three rooms instead of two as of September, 1945, is continuing to prove to be a great improvement. The attitude of the children is excellent, they have a much greater opportunity to receive individual teacher help and with two and three grades per room instead of four or five grades, each teacher has more time for each respective group.

The Danville Parent-Teacher Association has continued to show its cooperativeness by having presented a large number of new miscellaneous and supplementary reading books for all grades. The playground equipment provided within recent years continues in constant use. The whole hearted cooperation on the part of the P. T. A. is much appreciated.

The attendance record of the Eaton School has been very commendable. An attendance record of 95.6% with an average of only .2 of one tardiness per pupil is above the average of the state and shows excellent effort on the part of pupils and parents.

Although the school house has been kept in good general repair, it is badly in need of exterior paint and some minor repairs. It is believed that the special appropriation proposed by the School Board will cover the cost of this necessary work.

STATISTICAL DATA

	1943	1944	1945
	1944	1945	1946
Number of pupils enrolled.....	70	70	76

In conclusion, your attention is directed to the following reports of the school nurse, Mrs. Constance Cooper, R.N., and the music supervisor, Miss Prudence Hayes.

Again I wish to thank the members of the School Board, the teachers, pupils and parents for their continued cooperation in carrying on and improving the work of education in our community.

The members of your School Board continue to work for the betterment of the school. "They are helping to build the future" — and according to a recent publication, "perhaps more than any other group, they have the opportunity to shape the future of America."

Respectfully submitted,

JONATHAN A. OSGOOD,

Superintendent.

MUSIC

To the Superintendent of Schools and Board of Education of Danville, New Hampshire, I hereby submit the annual report of the music department:

Since it is the aim of all schools today to present a well-rounded program, music has been given its well-earned place in the curriculum. Many have long held the erroneous idea that to be musical implied great ability in performance and thereby relegated music to the few who were gifted at birth with unusual talents. However, through the use of the many modern methods every child, in some way, is found to be able to express himself musically. Such methods include rhythmic, rapid sight reading, and the ability to listen and appreciate.

In the Eaton School, every opportunity is given for this expression. Each room is visited for one-half hour weekly and a lesson presented. It is then carried out by the class room teacher for the rest of the week. The upper grades are singing two and three-part music; the lower grades are learning songs by rote and are beginning to read notes.

The rhythmic activities are considerably handicapped due to the fact that there is no piano in the primary grade room. Such activities as marching, skipping, galloping, etc., to music are impossible. If a piano could be given or loaned to the school it would be greatly appreciated.

In conclusion, may I express my appreciation to the teachers for their cooperation during this school year.

Respectfully submitted,

PRUDENCE HAYES.

HEALTH SUPERVISION

1945 — 1946

*To the Superintendent of Schools and School Board of
Danville, N. H.:*

Of the 74 pupils examined during the school year, 1945-1946, the following cases were found and treatment was given as indicated.
